

“I have come to Coady with the intention of re-enforcing my capacity in community development with the utmost objective of re-impacting the acquired skills to communities at the grass root level in order to generate a new impetus in community development.”

Tangyie-Evani A. Christophe

Executive Director

LEDUCANET (Lifeskills Education Network), Cameroon

As an Executive Director, I plan and make the policies and strategies of the organization, coordinate the staff, motivate and inspire the staff, write reports, mobilized funds for the organization, and evaluate the level of implementation of the set objectives.

The communities are being empowered and they have come to realize that they are the masters of their own destiny. This has multiple effects in their way of thinking, in their way of acting, and in their way of appreciating the natural resources at their disposal.

The objectives of the organization are the dissemination of educational information through empowerment of the underprivileged, poor and needy and vulnerable youths, reducing the spread of HIV & AIDS within the rural population and fighting poverty through capacity building by using asset based income generating activities.

We have increased the rate of literacy amongst the underprivileged, poor and needy and vulnerable youths. The rate of HIV & AIDS has been reduced through sensitization and basic needs have been met through some income generating activities for the rural poor.
