

*“I came back to Coady to join the leaders from all countries in their journey for a better world. I believe it is a universal journey toward justice and peace. We have the responsibility to create the world that we want to live in.”*

# Marie Ramsis Tawfik Abd El Sayed

*NGO Advisor*

*Agriteam Canada, Egypt*

I am responsible for managing the Community Grant Fund, which enables the most needy communities to identify barriers to quality kindergarten classes and overcome them. I ensure the application of children’s rights, gender and inclusion strategies, and promote principles of participatory practice, rights-based education and gender equality.

Agriteam Canada provides management and technical expertise to developing and transitional country partners on projects that promote sustainable growth and meaningful opportunities for people to improve their lives. We prioritize local ownership and capacity development in everything we do.

Our projects span the world: Africa, the Americas, Asia, Eastern Europe, and the Middle East.
