

“I came to Coady to improve my leadership skills in the development field.

Coady will give me a new look on leadership and appropriate ways to lead people to bring about the desired change in my community.”

Rachel Ouedraogo Kpelle

Senior Community Development Officer

Department of Community Development, Ghana

My role as a senior community development officer is to supervise field work in the communities and also teach home management skills.

The Department of Community Development works to transfer sustainable and employable skills to the youth, to expose women to available opportunities for enhancing their socio-economic status, to facilitate the dissemination of development related information to the people at the grassroots and relay back to the government.

Community members are taught employable skills to enable them to become economically viable and are provided with information so that they can make informed choices.
