*Organization for Women In Self Employment (WISE), Ethiopia*

The Organization for Women in Self Employment (WISE) envisions a nation where absolute poverty is eradicated and women are economically empowered. Thus, the purpose of our organization is to help poor, self-employed women and girls in their efforts to attain self-reliance, improve the quality of their lives and thereby enhance their contribution to the development of Ethiopia.

WISE is doing many activities to address current issues and opportunities. It envisions a nation where absolute poverty is eradicated and women are socially and economically empowered. In its effort to bring about sustainable changes in the lives of the target groups, WISE adopts a three-fold programme strategy, namely: Organizing and Institutions Development; Enterprise Development; Learning and Strategic Partnership to translate its objectives into action.
