

I came to Coady to learn leadership skills, new ideas and practical ways of mobilizing for positive change in my community.

Solomon Kwame Anancy

Finance and Administration Officer

WiLDAF Ghana, Ghana

My duties include audit planning, fund management and donor reports. I also provide field and administrative support to programme staff during project implementation and management. We have an impact in the community overseeing processes and personnel to make sure that the company is able to implement policies that will bring positive changes in my community.

Our main goal is to increase women's access to justice through implementation of a community-based legal literacy programme in four main regions in Ghana. WiLDAF strategically uses the law as a tool for development, believing that a citizen's ability to assert their rights is one key factor to development. We have applied capacity building at both local and national levels to support our beneficiaries. They are able to participate in various elections and represent the people in local government structures and national decision-making bodies such as parliament.
