

*I came to Coady to enhance my leadership skills and deepen my knowledge of participatory community engagement. I hope to go back with better communication skills that will enhance my work relationship with the members of my organization.*

# Charity Assibi Bukari

*Board Chairperson*

*Widows and Orphans Movement, Ghana*

As a board member and chairperson, my work with the organisation cuts across both management and advisory roles. I support the organisation with technical know-how, capacity building, fundraising and counseling. I work with the members of the organisation to carry out activities such as drama, music and radio to raise awareness about the harmful effects of widowhood rites, violence against women and widow disinheritance.

We mobilise and organise widows and orphans for their social, educational, economic, moral and spiritual development. We also assist widows and orphans to undertake income generating ventures. Our public awareness initiatives highlight the plight of widows and orphans and help educate the public about their responsibilities.
