

I came to Coady International Institute because I wanted to learn new skills, ideas and a better understanding of being a good leader, through training I can become an effective and qualified leader in my organization and the community as a whole.

Althea Francis

Executive Officer/Supervisor Of The Registry Department

Ministry Of Social Transformation & Human Resource Development, Antigua & Barbuda

I am supervisor of the Registry Department, responsible for regular administration. I live in a community where we have established a neighborhood watch group, and am very vocal and active in the group. My organization is responsible for community groups and I assisted with the formation of my group. We invite the Minister of Parliament of the area, other prominent members, police officers, and other watch group members to group discussions to plan the way forward for all in community.

The main goal of my organization is to provide social and community services with an emphasis on combating poverty, enhancing equality and improving the standard of living for all citizens. It provides projects and programmes that will promote poverty eradication, arranges counselling and public awareness for school-aged children, and assistance for home repairs for the elderly. The organization also provides social support services through empowerment-oriented activities dealing with child protection, family/social welfare services and improves the social and economic development of the country.
