

I came to Coady to acquaint myself with knowledge and skills required for uplifting the socio-economic status of my community and nation at large and as well sharpen my leadership skills for improved relations with community and colleagues.

Ibrahima M.B.S. Kinteh

Principal Planner

Ministry of Finance and Economic Affairs, The Gambia

I work in the Directorate of Development Planning tasked with the coordination of the formulation and implementation of national development plans and periodic review of policies, programs and projects for sustained economic growth, equity, and social harmony. We strive to strengthen linkages between sectors and regional policies/programmes for effective coordination, evaluation and value for money.

The main goal of the Ministry is to promote socio-economic development and the welfare of Gambians with effective and efficient public financial management, through greater transparency, accountability, fiscal discipline and good governance. Our financial and economic policy objectives impact every strata of the Gambian community.
