

I came to Coady to learn new skills and knowledge and to enhance my capacity in leadership to play an effective role in the organization and society.

Kunwari Minj

Project Manager

Carmel School & Hostel Childfund, India

My main roles include project management, design, budgets, monitoring and timely evaluation of the project activities and coordination with project staff. I facilitate and conduct training programs for staff at the project level. I am also responsible for networking with government departments and other NGOs.

The main focus of our organization is to help deprived, excluded and vulnerable children living in poverty so they can have the capacity to become young adults, parents and leaders who bring lasting and positive change to their communities. The organization works for positive outcomes in every stage of a child's life by addressing issues relevant to them. We conduct awareness programs, capacity building and skill training in health, education, nutrition, early childhood and livelihoods. This leads to an increase in the number healthy children being born, less sickness, increased school enrolments, and more leadership skills among our young people.
