

I came to Coady with a view to achieve professional excellence with international exposure of the best kind that is available to the NGOs all over the world.

Lazarus Udayakumar

Project Consultant & Vice President

Annai Theresa Social Work Association (ATSWA), India

As project consultant and vice president, my main work is to visualize and prepare projects and present them to donors for sanction. I am also in charge of all communications and international relations. My work has brought new life to the HIV-affected girls and the disabled in Chittoor District of Andhra Pradesh.

The association empowers the downtrodden, the deprived and the marginalized with skills and facilities to overcome their limitations. The daughters of temple prostitutes have received education and the chain of prostitution has been broken and rescued from the clutches of HIV/AIDS. Girls affected by HIV receive new hope in our residential care facility. The disabled people find education and rehabilitation through our work in the remote parts of the district. There is visible transformation in the communities.
