

*Coady International Institute trains and produces young leaders to be reflective thinking and soul searching with their knowledge and skills. This knowledge can transform our communities to be better places in which to live.*

# Azabura Martin Abeleyine

*Programs director*

*Centre for Alternative Development (CENFAD-Ghana), Ghana*

As programs director, I manage the organisation to ensure continuous dialogue between donors, partners, stakeholders and team members. I ensure the optimal and effective and efficient use of resources towards timely execution of schedule plans. I also have responsibilities to undertake monitoring and evaluation, quality assurance and ensure the availability of needed logistics for programs implementation. I am also the pivotal link in terms of planning, monitoring and supervision and the production of quality reports.

The Centre for Alternative Development (CENFAD-Ghana) is committed to addressing high level of ignorance, reducing rural poverty, social injustice and powerlessness especially amongst the marginalized rural poor and the vulnerable. Our philosophy is that, people no matter where they live, have the same basic needs, and we believe in a life of freedom of expression, peace and dignity for all. In order to achieve our primary goal, our activities are grounded in the belief in the right to be free from hunger and poverty and the right to exercise of freedom of expression.
