

I come to Coady with a passion to learn and will equip myself with leadership tools to be an effective local-global leader, to serve the community, to recognize how the world is interconnected and to stand and act for transforming the relationships into a just world that all human kind benefits from.

Yirga Gebregziabher Assefa

Branch manager

Organization for Social Service for AIDS (OSSA), Ethiopia

As OSSA Tigray branch manager, I am responsible to lead and manage the overall organizational and community-based programs and activities by mobilizing staff and the community volunteers. We take effective action to realize the shared vision both at organization and community levels in a sustainable and gender-sensitive approach.

OSSA is a non-profit, community-based organization committed to ensure high quality social services to improve the well-being of vulnerable youth, men, women and children through integrated HIV/AIDS, sexual reproductive and environmental health and self-reliance interventions.
