

*I came to Coady to unveil my leadership potential to coordinate my organization in a more vibrant way and serve the poor more effectively.*

## Sheikh Imran Kibria

*Head of planning, monitoring and evaluation (PME)*

*Christian Commission for Development in Bangladesh (CCDB), Bangladesh*

I am responsible for developing monitoring plans for different projects with the assistance of my team members. I also frequently visit our working areas for conducting monitoring studies and to write the monitoring report. In any external evaluation, I provide all sorts of cooperation and coordinate the evaluation process. Developing project proposals is another responsibility. Moreover, I maintain regular correspondence with our donor partners.

CCDB is mandated to work on the basis of ecumenical principles to create a society where the poor, marginalized and vulnerable people can claim and enjoy their rights and seek justice for a sustainable livelihood. It responds to people's needs and aspirations through development interventions, addressing emergency needs, relief, rehabilitation, focusing on human resource development in self-reliance, collective growth and distributive justice for effective community development.
