

*Coady is wonderful.
I came here to learn
how to become a better
leader and learn from
others about building
communities.*

Sr. Amudha, SMMI

Project co-ordinator

Salesian Missionaries of Mary Immaculate, India

My day to day activities in the organization include a lot of listening to the people, building up the community and teaching them to become leaders. We teach them the values of life, and we organize the groups to work for a better cause and co-ordinate with the government officials and the community.

Salesian missionaries of Mary Immaculate work for the restoration of the dignity of every human being, especially for women's and girl's health care and education. We provide skill training in fashion design, embroidery, tailoring and other hand work. We have adult education for school dropout girls and help them to find a job and live a happy life.
