

My mission on the journey to Coady is to explore and understand the philosophy of development leadership. I have crossed oceans and seas in search of answers to the development leadership dilemmas in my community.

Wilson Wamatsembe

Director of business development and corporate affairs

The Microfinance Support Centre Limited, Uganda

As director, I help design and manage projects focusing on business process mapping and improvement, financial systems development, product and market development and delivery channels development for user-owned and managed microfinance interventions.

MSC is mandated to provide affordable micro-credit and business development services to cooperatives, microfinance institutions and SMEs in Uganda. It is a lead provider of microfinance services in Uganda and facilitates access to affordable loans while strengthening management capacities of partner business organizations through technical assistance and training. We help partners upgrade their capacities so they can manage their businesses profitably and sustainably.
