

I came to Coady to engage with diverse cultures and perspectives, raise my self-awareness and create innovative actions and partnerships to give us power to make change in our societies.

Moshira Zeidan

Programs executive director

Youth Association For Development And Environment (YADE), Egypt

I direct all YADE programs by providing leadership, strategic and executive/operational management, resource mobilization and capacity building to make us more effective in meeting the needs of our youth stakeholders and target groups. I also represent YADE to other organizations, monitor and evaluate activities and maintain our standard of excellence in areas such as women's rights, education, environment and civic engagement.

YADE, founded at 1998, seeks to make a positive and sustained impact on Egypt's social, cultural and economic development. We engage Egyptian youth in community development, civic work and decision-making arenas. By networking and using community participation approaches, we are addressing Egypt's development problems, especially in marginalized communities.
