

I came to Coady because I want to be a leader and change agent in my organization and community in gender related issues. Most importantly, I want to learn different gender approaches and how they can be applied in the economic development context.

Majubere Margaret Mofolo

Enterprise Development Officer

Basotho Enterprises Development Corporation (BEDCO), Lesotho

I act as an economic development catalyst at the community level, applying innovative ways of improving on inclusive value chain programmes to create space and an enabling environment for everyone to take part in economic development. In addition, I plan to incorporate gender issues in our capacity building programs.

The Basotho Enterprises Development Corporation (BEDCO) is a government agency that was established in 1980. The primary responsibility of the corporation is the establishment and development of Basotho-owned enterprises. Since its inception, BEDCO's main focus has been to fulfill the mentioned mandate through a number of interventions such as entrepreneurial capacity building.
