

“I am here at Coady to connect with inspiring women from all over the world, as well as to develop myself as an individual and a professional. I am also taking this opportunity to build my leadership plan for the future.”

Khushbu Agrawal

Research consultant

Owner, Kathmandu, Nepal

The GCL program has exposed me to endless possibilities and I am looking forward to returning to my community to put into practice what I have learnt during my time here. I will continue my work to make sure women and girls claim their rightful space, access and justice.

As a consultant, I have worked with organizations such as the South Asia Partnership International, International Institute for Democracy and Electoral Assistance, Save the Children, and International Organization for Migration. I conduct research, policy analysis, and program development and evaluation, particularly in the areas of constitution building, health, gender and development, and equitable political participation. I also conduct capacity building activities on gender and gender-based violence for national and local organizations and government officials.
