*R<sup>3</sup> project, Palestine*

As the co-founder of the project, I work on applying the project's principles and implement many methods to reach people around Palestine. I work with people from different backgrounds, which gives me the chance to teach and learn at the same time. I love what I do!

R<sup>3</sup> is an environmental project that aims to increase awareness and develop the green culture in Palestine. The project focuses on applying the three main environmental aspects: Reuse waste and unused materials; Recycle materials; and Reduce the depletion of environmental resources. Our vision is to create a healthy world with less pollution, less consumption and much more of awareness of the environmental issues.
